Contents

Marine Geology Volume 111, 1993

Letter Section

Mud ridge on the crest of the outer swell off Japan Trench
Y. Ogawa and K. Kobayashi 1

New evidence for enhanced preservation of organic carbon in contact with oxygen minimum zone on the western continental slope of India
A.L. Paropkari, C. Prakash Babu and A. Mascarenhas 7

Regular Research Papers

Sediment mixing and accumulation rates in the Sulu and South China Seas: Implications for organic carbon preservation in deep-sea environments
S.A. Kuehl, T.J. Fuglseth and R.C. Thunell 15

Iceberg scouring in Scoresby Sund and on the East Greenland continental shelf
J.A. Dowdeswell, H. Villinger, R.J. Whittington and P. Marienfeld 37

Petrological–statistical approach to interpret Recent and sub-recent lagoon subfacies, Idku, Nile delta of Egypt
J.-L. Loizeau and D.J. Stanley 55

Holocene depositional history of the Fluviá–Muga prodelta, northwestern Mediterranean Sea
J.I. Díaz and G. Ercilla 83

Morphological and seismic characteristics of the Kaoping Submarine Canyon
C.-S. Liu, N. Lundberg, D.L. Reed and Y.-L. Huang 93

Sediment budget and transfer of suspended sediment from the Gironde estuary to Cap Ferret Canyon
P. Ruch, M. Mirmand, J.-M. Jouanneau and C. Latouche 109

Authigenic zeolites in Late Pleistocene sediments of the South Atlantic (Angola Basin)
F.X. Gingele and H.D. Schulz 121

Verdine and other associated authigenic (glaucony, phosphate) facies from the surficial sediments of the southwestern continental margin of India
V. Purnachandra Rao, M. Lamboy and P.A. Dupeuble 133

Aspects of the emplacement, evolution and ^{14}C chronology of ridges on a coastal spit, Groote Eylandt, Northern Australia
J. Shulmeister and J. Head 159

The significance of *Marginopora vertebralis* (Foraminifera) in surficial sediments at Esperance, Western Australia, and in last interglacial sediments in northern Spencer Gulf, South Australia
J.H. Cann and J.D.A. Clarke 171

Special Issue: Holocene Sedimentation in the Skagerrak. Edited by G. Liebezeit, T.C.E. van Weering and J. Rumohr

Preface iii

Multiple Pleistocene ice advances into the Skagerrak: A detailed seismic stratigraphy from high resolution seismic profiles
W.R. von Haugwitz and H.K. Wong 189

Sandwaves and other large-scale bedforms as indicators of non-tidal surge currents in the Skagerrak off Northern Denmark
A. Kuijpers, F. Werner and J. Rumohr 209

Clay mineral and heavy metal distributions in the northeastern North Sea
V. Zöllmer and G. Irion 223

Sediment transport pathways in the Skagerrak and Kattegat as indicated by sediment Chernobyl radioactivity and heavy metal concentrations
A. Kuijpers, B. Dennegård, Y. Albinsson and A. Jensen 231

Sedimentation and environmental conditions in the inner Skagerrak–outer Oslofjord
K. Pederstad, E. Roaldset and T.M. Rønningsland 245

Sediment transport, resuspension and accumulation rates in the northeastern Skagerrak
T.C.E. van Weering, G.W. Berger and E. Okkels 269

Origin, distribution and accumulation of organic carbon in the Skagerrak
K.K. Anton, G. Liebezeit, C. Rudolph and H. Wirth 287

Skagerrak (northeastern North Sea) oxygen microprofiles and porewater chemistry in sediments
J.F. Bakker and W. Helder 299

Living (stained) benthic foraminifera within surficial sediments of the Skagerrak
B.H. Corliss and T.C.E. van Weering 323

Mineralogy and geochemistry of a core from the Skagerrak/Kattegat boundary
G. Meyenburg and G. Liebezeit 337
Rare Earth Element fractionation by selective sediment dispersal in surface sediments: the Skagerrak
G.T. Klaver and T.C.E. van Weering 345
Depositional processes under changing climate: Upper Subatlantic granulometric records from the Skagerrak (NE-North Sea)
H.C. Hass 361
Holocene sedimentation in the Skagerrak: A review
T.C.E. van Weering, J. Rumohr and G. Liebezeit 379
